

2021 Fees

We recognise the financial impacts that COVID-19 has had on many members of our community and have made only the required adjustments to fees to ensure that performers can return to classes and competitions in a COVIDSafe environment.

REGISTRATION FEES

Performer registration (including insurance) will remain as per 2020:

- \$85 competitive member
- \$45 recreational member

COMPETITION ENTRY FEES

In 2021, we will follow a *pay up front model* for competition entry fees:

- Teams: increased competition entry fees as below, with reduced ticket prices for audiences
 - \$12 per performer/per item/per competition - all competitions
- Solos: increased competition entry fees as below, with 1 audience ticket included (should COVID-19 restrictions allow)
 - \$66 solo/duo entry - local competitions
 - \$85 solo/duo entry - State Championships

The pay up front model gives us the best chance to run competitions under COVID-19 restrictions. Increasing competition entry fees ensures a financially viable competition season, as we cannot rely on audience ticketing to cover the cost of venues. This is due to current and potential restrictions on audience numbers, and is a model that is being used by other sports in 2021.

FEES FOR CLUBS

Thanks to Government support around getting our community back to sport in 2021, we have also introduced a rebate for clubs who have moved through the various levels of the Leading Clubs program.

There have been changes to Club Affiliation Fees for 2021. Club section fees (normally charged by CaliVic) have been waived for 2021, Volunteer Insurance remains the same and Management Liability Insurance has incurred a slight increase.
